

Pure Body

A natural way to keep your body free of toxins.

Wake up feeling refreshed, with clear focus, and energy to sustain you throughout your day when you detox and bring your body back into balance.*

Why detox? No matter how hard you try to minimize your exposure to chemicals and toxins, they keep showing up in our bodies—things like mercury, lead, cadmium and plastic byproducts— simply because they are everywhere in our environment, and the damage they do isn't pretty.

Fortunately, nature provides protection against many of the toxic elements we encounter every day. The zeolite clinoptilolite—a negatively-charged mineral—works like a magnet, attracting positively-charged toxins, safely and gently carrying them out of the body within hours.*

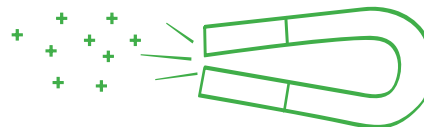

Clinoptilolite Zeolite:

- Research shows it selectively binds to toxins including mercury, lead, cadmium, arsenic, radioactive particles and volatile organic compounds.
- Extensively studied (pubmed.org).
- Granted GRAS status by the FDA (Generally Recognized as Safe).
- Helps to balance the body's pH, considered essential for good health.
- Acts like a magnet to attract and trap heavy metals and positively-charged toxins in and onto its crystalline structure.

Size Matters

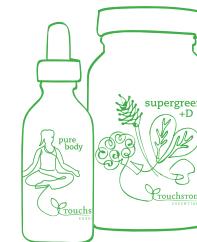

The zeolite particles in Pure Body are sized to a mean average of 0.3 microns to work two ways.

- 1. Systemic Detox:** Smaller particles are absorbed into the bloodstream to help trap toxins found in the body and from the air you breathe.*
- 2. Digestive Detox:** Larger particles help trap toxins from the food you eat and water you drink.*

The Good Inside

- 30 day supply
- Take 4 drops 3 times per day in water
- Proprietary Processed Clinoptilolite Zeolite 30 mg per serving (4 drops)
- Other Ingredients: Pure water

Supercharge your Detox

Not all toxins are positively-charged for zeolite to attract and trap. For a deeper digestive detox, get the Detox Plus Pack.

A combination of Pure Body and Supergreens +D gives you nutrient-dense greens—a rich source of chlorophyll—which helps bind to toxins in your digestive system.*

Backed by a 30-day “good inside” guarantee.

Doctor Recommended

“While there are many zeolite products on the market today, one in particular meets the rigorous standards medical professionals seek—Pure Body.”

—Alex Lee, M.D. Board Certified Internal Medicine, Gastroenterology
